

RustSec heap security evaluation: mechanism sets

Post-source-audit view: 53 screened, RSH-006 removed as stack-only, 52 heap-relevant cases retained.

Full retained heap scope

52 reviewed · 48 executable · 4 audit-only

Use-after-free subset

18 reviewed · 17 executable · 1 audit-only

Circle overlap = the same case has qualified evidence from both mechanisms (RSH-002).
